Stag beetle quiz game- leader's notes

Background to activity

In this activity children will answer a short quiz about stag beetles and try to assemble a stag beetle. This activity will help familiarize the children with the stag beetle body parts and test their knowledge of basic stag beetle facts.

Materials needed

- Glue
- Numbered stag beetle template downloadable from the website
- Stag beetle body parts downloadable from the website

Running the activity

Each child has a stag beetle template. The quiz questions and stag beetle body parts (on the template) are numbered 1-12. For each question the child gets right, they can stick the corresponding body part onto their template and colour it in.
