

What makes me an insect?

Why do I only live for a few weeks?

How do I eat?

What do I do all day?

What did I eat when I was growing up?

What
Now
Why

How do I breathe?

How do I smell?

Why have I got large jaws?

Why have I got hard brown wingcases?

What do I eat now?

Where do I live now?

Why am I endangered?

Where did I live when I was growing up?
