

I'm raising money for People's Trust for Endangered Species

Our wildlife is disappearing. We are in danger of losing animals like red squirrels, dormice and hedgehogs from Britain forever. There is nothing natural or inevitable about the alarming rate at which we are losing animals and their living landscapes. It can be stopped. That is why People's Trust for Endangered Species exists.

For over 40 years PTES's ground-breaking research has resulted in practical conservation action across the world, targeted where it is most needed and where it will have maximum impact. Everyone can play a part and together we can bring the wild back to life.

To raise money, I am:

.....

.....

My fundraising goal is:

.....

.....

You can donate to my fundraising by:

.....

.....

I hope you'll support me and help raise money for our endangered wildlife. Thank you!
