

The Secret Orchard

A community orchard of heritage fruit trees
(established 2022) is celebrating national

Orchard Blossom Day

Friday 26th April

Blossom days appear as if by magic through March, April and May, as the fruit trees gradually flower, from plum, to pear, to apple trees. The Secret Orchard has an open invitation to everyone, on any day, to take time out to visit, and enjoy a mindful, peaceful stroll around the orchard, to experience this spring spectacle, and to reflect on this optimistic and inspiring time of year.

The beauty of fruit trees in flower symbolises springtime and hope, for the fruit to follow. There will be springtime poems by the log seats for you to sit and read, encouraging you all to slow down and enjoy this special moment in the year.

The Secret Orchard is a very young orchard, full of hope and promise for the future. We found inspiration in visiting older characterful orchards nearby, here are just a few well worth visiting -
